PLAIN STEEL

Plain Steel

Plain steel is used for forming and welding in industrial and commercial applications, including construction of buildings, appliances, cars, roads, railways and other infrastructure. We offer hot- or cold-rolled steel depending on the application. Cold-rolled steel is used widely in the art community and is considered the metal of choice for many modern sculptors. Cold rolled products have a higher yield strength, hardness and tighter specification than hot rolled steel.

FEATURES & BENEFITS

- Considered one of the strongest metals in terms of application.
- Smooth finish must be protected by a coating to prevent rusting.
- Used often in metal sculpture and other creative projects.
